Street Resource Group, Inc. Appoints New Chief Operations Officer *Semi-Annual Enhancements Based on Direct Feedback from Warehouse Lenders*

ATLANTA, GA – February 15, 2007 – Street Resource Group, Inc. (SRG), the premier provider of technology and consulting, technology and information solutions exclusively for mortgage warehouse lenders, has appointed David Brackin Chief Operating Officer (COO) effective immediately. Brackin specializes in software development, information networks and operations solutions for the mortgage warehouse lending software industry.

“Over the past year, Street Resource Group has achieved many business plan milestones and continues to grow at a tremendous rate,” said Stanley Street, president of Street Resource Group, Inc. “I’m confident David’s knowledge of the industry and of SRG will contribute greatly to the continued success of our company.”

Brackin, who joined SRG in 2002, has held senior management positions at several major public companies including USgift.com, a \$100 million business-to-business website funded by Internet Capital Group; and then at Supplier Capital, a factoring software company, where he automated data transmission processes. Prior to these positions Brackin was the senior software engineer on OneCoast Network’s sales force automation software.

“Having been involved with Street Resource Group for the past five years, it’s exciting to take on the new challenge of COO,” said David Brackin. “We have made significant strides over the years in the development of our WLS software and I look forward to helping SRG continue to break new ground and set the standards for the mortgage warehouse lending industry.”

ABOUT STREET RESOURCE GROUP, INC.

With more than twenty years of experience serving the financial services industry, Street Resource Group, Inc. (SRG) is the only technology and consulting company dedicated solely to the needs of mortgage warehouse lenders. Through this specialized expertise and its flagship product, Warehouse Lending System (WLS), SRG helps companies enhance best practices, streamline processing, tighten security and automate the complete loan lifecycle for mortgage warehouse lending.
