**Street Resource Group, Inc. Announces
Mortgage Warehouse Lenders Forum in New York**
Forum Agenda Includes FBI Presentation

Atlanta – May 14, 2007 – Street Resource Group, Inc. (SRG), the premier provider of technology and consulting solutions exclusively for mortgage warehouse lenders, announced today that the company will be hosting a Mortgage Warehouse Lenders Forum from 4 p.m. to 6 p.m. on Sunday, May 20, 2007. Senior managers from the nation's leading warehouse lenders will gather at Rockefeller Center's historic Rainbow Room in New York City to discuss issues of industry importance and learn new and important approaches to mortgage fraud risk management.

First on the agenda will be a presentation by Scott Broshears, supervisory special agent and mortgage fraud coordinator for the FBI's Financial Crimes Section. Agent Broshears will share real-world examples of mortgage fraud involving the warehouse lender community, while covering the tactics, tools and techniques by which the FBI is identifying and fighting fraud today. Agent Broshears's presentation offers a unique opportunity for warehouse lenders to gain valuable insight into the world of law enforcement and learn how the justice process works as part of a comprehensive fraud mitigation strategy.

SRG President Stanley Street will then discuss the newly formed Warehouse Information NetworkSM (WIN), the groundbreaking independent, membership-based collaborative that provides automated risk mitigation services, shared industry information databases, and forums for the exchange of ideas on issues related to mortgage warehouse lending. He will also present the opportunity for the industry to use this consortium for the development of mortgage warehouse lending standards and practices and as a vehicle to communicate as a collective group with other industries (title companies, e-mortgage suppliers, etc) which have impact on the business of warehouse lending. "The Warehouse Information Network," explains Street, "represents a valuable new set of tools, information and resources specific to the mortgage warehouse lending community. I look forward to presenting its mission statement and discussing the benefits of membership in this new organization."

The Forum's schedule concludes with a group discussion on closing agent risk. "The closing agent is often the lynchpin to fraud and a major risk point for mortgage warehouse lenders," Street says. "The group we are assembling in New York, in terms of both attendees and presenters, represents a wealth of industry expertise. The goal of the forum is to leverage the collective expertise for the individual benefit of everyone involved." Attendees will discuss both proven methods and potential measures that can be taken to reduce this critical risk.

A cocktail reception will follow the program, with participants encouraged to continue the conversation and network with their peers. Registration is free and limited space is still available. Mortgage warehouse lenders who want to take part in this informative industry forum are encouraged to register. Senior warehouse managers can register online at www.streetresource.com.
